EDUCATION

Monash University

Feb 2023 – Dec 2025

Bachelor of Industrial Design • GPA 3.74 • WAM 85

- MADA Now Outstanding Design in Sustainability Award – Unstitch (Textile), nominated for 2026 GOTYA DIA Design Award
- Summer Vacation Research Scholarship (Faculty of IT); Engineering International Undergraduate Excellence Scholarship

Bachelor of Engineering (Honours) & Arts | Transferred • GPA 3.67 • WAM 82.5 • Dean's Honour List 2021

Feb 2021 – Feb 2023

EXPERIENCE

Another Studio | Hybrid

Apr 2023 – Present

Freelance Consultant (Industrial Design & Project Management)

- Delivered design projects for commercial clients and guided them through specifications, sourcing, prototype to production and installation
- Negotiated a 100% increase in contract rates through evidence-based design recommendation, contributing 10% increase in annual revenue
- Delivered fabricated artefacts and exhibition sculptures using CAD, electronics, 3D scanning, mould making and additive manufacturing
- Clients: free.studio, MUMA x Ivan Cheng exhibition, Corpus Rhizoma (Melbourne Design Week '25-'26)

Reimagine Agriculture – MPAC & The Writing Room Arts Company | Melbourne, VIC

Mar – Jun 2025

Project Coordinator, Lead Industrial Design

- Coordinated a multidisciplinary team of engineers, industrial designers, spatial designers and performing artists to deliver exhibition and theatre artefacts for Jess Kapuscinski-Evans' Arts Centre, Alter State 2026 production and Melbourne Design Week 2025 showcase
- Produced 6 custom pieces at multiple scales (1:1, 1:20, 1:50 miniature theatre set) utilising materials (cardboard, plywood, bamboo) that prioritise ease of transport while balancing structural integrity to suit theatre setting, exhibition set-up and interaction
- Designed and printed exhibition graphics, labels and 800x1800mm exhibition banner to support visitor engagement and project storytelling
- Liaise with installation team to coordinate exhibition installation, artefact transport and maintenance including, living microgreen displays
- Aligned project requirement with client needs and improved collaboration through shared Figma documentation and tracking

Unstitch – Monash University | Melbourne, VIC

Aug – Nov 2025

Lead Designer

Won Outstanding Design for Sustainability, MADA Now 2025 Exhibition

- Developed a tex-TILE product system addressing textile waste through modular agility and scalable upcycling manufacturing principle
- Evaluated 8 fabrication methods across small-scale, hobbyist and manufacturing contexts to determine suitability for production
- Designed and fabricated a custom single-edged blade clicker die after unsuccessful metalworking trials, producing CAD models with user parameters, manufacturing drawings and dxf files for laser-cut stainless steel blade into 3D-printed housing
- Collaborated with 5 technical workshops (dFab, metal, print, iris, print) to prototype and manufacture project outcomes
- Led product R&D, user testing, branding, exhibition design and website development with external collaborators
- Presented outcomes through public workshops, exhibition and stakeholder engagement with interactive display; featured illustrated A1 service map graphics and workshop station, leading to commercial and educational opportunities with industry partners (DATTA Vic)

Monash Assistive Technology Team (MATT) | Melbourne, VIC

Apr 2023 – Dec 2025

Operations Tech Lead

- Designed accessible product for neurodivergent youth to lose less things, and maintained detailed design documentation and decision logs to support handover and product iterations in cross-functional teams (engineering, IT, design) from concept through to execution
- Led Tech Branch with a team of 5 to support teamwide upskilling with 4 workshops (Autodesk Fusion, UI/UX) averaging 75% attendance

LEADERSHIP

Zero Waste Victoria | Remote, VIC

Nov 2025 - Present

Board Member

- Project manage Zero Waste Festival Sep 2026 and support logistics coordination, incl wayfinding, of the 1st ReWear Runway competition
- Spearhead optimisation and automate status update of 700+ nationwide businesses for Reusable Nation's Shop Waste-Free Map

Monash Mobility Design Lab | Melbourne, VIC

Nov 2024 – Jun 2025

Research Assistant for A. Prof Robbie Napper's World Bicycle Project

Space for cycling: A scoping review of recent evidence on the dynamic envelope for bicycle riding. <https://doi.org/10.1016/j.trip.2025.101800>

- Co-developed fieldwork methodology to ensure reliability and future reproducibility across sites in Australia, Netherlands and India
- Conducted 3 live site field research with strict adherence ethical research protocols to collect and analyse 1,000+ data points into insights

SKILLS AND INTERESTS

- English & Mandarin (Native), Cantonese (Conversation), proficient across Autodesk Fusion, Adobe Creative Cloud - Mac, Windows
- Technical: prototyping (3DP, [metal] laser cut), materials (plywood, foam, bio, textile), mould making (silicone), fabrication + finishes
- Avid autodidact: past actress in musicals and pianist in School Orchestra, content producer, Japanese wagashi and baking science
